For completion by Keeper at Departure Location

For Completion by Transporter

For Completion by Keeper at Receiving Location

NOTES

- This document meets the reporting rules in the Sheep and Goats (Records, Identification and Movement) (England) Order 2009, as amended, and Article 4 of EC Regulation 1/2005 on welfare of animals during transport and related operations requiring transporters to carry an Animal Transport Certificate, recording the origin /ownership of the animals, places of departure / destination and information allowing journey times to be assessed.
- Complete all fields, to comply with para. 1 above.
- The CPHs of the premises from which the animals are departing, and to which they are travelling must be recorded.
- Addresses must likewise accurately reflect where the animals are moving from and to.
- This is a single movement reporting document. Each stage of a multiple move must be completed on a separate document.
- If section 1 is not completed by the departure keeper, it must not be completed by the destination keeper (LIS will contact them for that information)
- Vet Attestation Number (section 1) - enter this 20 digit number (provided to you by your vet after an animal health visit) see example below. Without it meat and products from the animals might not be eligible for export.

Vet Attestation Number (VAN), enter all 20 digits below												
1	2	3	4	5	6	7	Vet's RCVS no.					
2	2	3	3	3	4	4	4	4	CPH no.			
								0	9	2	4	Expiry date

- Food Chain Information is described in EC Regulation 853/2004, Annex II, Section III.
- Other movement rules are in the Disease Control (England) Order 2003 (as amended), and the General Licence at: <https://www.gov.uk/government/publications/sheep-and-goat-movement-general-licence-for-movement-of-sheep-and-goats>
- Expected duration of journey is from the time the first animal is loaded at the place of departure until the time the last animal is unloaded at the place of destination including any rest times or stops for any other purposes on route.
- The keeper at the destination holding must keep a copy of this movement document for 3 years.
- An editable version of this form is at <http://www.livestockinformation.org.uk>

This document may be retained by keepers as an alternative to completing records of OFF movements in their holding registers.

Food Chain Information (FCI)

- Sheep and goats on the holding are not under movement restrictions for animal disease or public health reasons (excluding any 6 day standstill).
- Withdrawal periods have been observed for all veterinary medicines and other treatments administered to the animals while on this holding and previous holdings
- To the best of my knowledge the animals are not showing signs of any disease or condition that may affect the safety of meat derived from them
- No analysis of samples taken from animals on the holding or other samples has shown that the animals in this consignment may have been exposed to any disease or condition that may affect the safety of meat or to substances likely to result in residues in meat.

Additional FCI

Information about animals showing signs of a disease or condition that may affect the safety of meat derived from it/them.	
Identification of animal(s) - or attach list	
Describe the disease or condition, or diagnosis if a veterinary surgeon has examined the animals	
Withdrawal periods have been observed for all veterinary medicines and other treatments administered to the animals while on this holding and previous holdings.	
Information about holding restrictions or results of analysis of samples relevant to public health	

DATA PROTECTION
